WTCS Fire Service Training does not mandate which curriculum must be used by any Technical College District, but content-format and certification-testing documents are compiled according to the curricula listed above. All training and testing materials are designed in accordance with applicable National Fire Protection Association (NFPA) Job Performance Requirements (JPRs).

Please check with your Technical College to confirm title and edition they have selected for the course you plan to take.

All texts are in stock and available for delivery at no extra charge (Wisconsin addresses). We will gladly invoice your department or agency, as many are already on file with us. Please inquire about pricing on digital materials, and Classroom Consignment options.
